

Twin Air Tech Tip: Honda CRF450R 2013

Twin Air has developed the perfect air filter solution for the new 2013 Honda CRF450R. The new Twin Air Powerflow Kit (Part number 150222C) contains a billet aluminum filter cage and a pre-oiled, fire retardant air filter (Part Number 150222FRX). The new aluminum filter cage is designed to increase airflow and provide a rigid, tight sealing surface. The air filter has a new shape to improve fitment, increase surface area, and less glue seams.

As a result of the intensive cooperation with Honda Factory Racing, we developed this optimal solution for the airbox. Currently, Trey Canard, Justin Barcia, Evgeny Bobryshev and Rui Goncalves are riding with these new Powerflow Kits.

The following Twin Air part numbers are available for the 2013 Honda CRF450R:

Part Number:	Description:
150121ISR	Airboxintake Sealingring Honda CRF 450R 2013
150221	Standard replacement Air Filter Honda CRF 450R 2013
150222FR	Air Filter (FR) Honda for Powerflow Kit (150222C) CRF 450R 2013
