

NITRO MOUSSE

NITROMOUSSE

NitroMousse combines a high concentration of nitrogen into an incredibly tough micro-matrix of proprietary elastomers. This eliminates the dead feel and provides a much more lively, lighter and traction enhanced feel from the very first ride, as they do not need a break in period. Additionally, our proprietary formula and manufacturing process provides a mousse that will last up to twice as long at a much lower cost. Nitromousse provides a much more progressive, predictable, and secure feel from the very first ride that will never leave you stuck with a flat!

- Nitromousse uses an incredibly tough micro-matrix of proprietary elastomers Increasing Durability, allowing Nitromousse to last up to 2X longer than other mousses.
- Nitromousse contains a high concentration of Nitrogen which gives it a much Plusher, Pneumatic (air) feel, eliminating the dreaded "Dead Feel".
- The Nitrogen formula gives the Nitromousse a Low Pressure Predictable ride, Resisting Impacts and increasing Bump Absorption.
- The Nitromousse compounds allow for a more Lively, Progressive ride eliminating Deflection and providing a Lighter feel in motion.
- Nitromousse does not need a Break In Period and has been designed and tested to Perform Consistently in Temperature ranges from 30-100+ Degrees.

PART #	MFG #	DESCRIPTION
177-21220	NM21-220	Fits most tires sized: 80/100-21 & 90/90-21
177-21235	NM21-235	Fits most tires sized: 90/100-21
177-19255	NM19-255	Fits most tires sized: 100/90-19
177-19280	NM19-280	Fits most tires sized: 110/90-19 & 120/80-19
177-18270	NM18-270	Fits most tires sized: 100/100-18
177-18285	NM18-285	Fits most tires sized: 110/100-18
177-18305	NM18-305	Fits most tires sized: 120/100-18
177-18325	NM18-325	Fits most tires sized: 140/80-18
177-18345	NM18-345	Fits most tires sized: 140/100-18

TUBLISS SYSTEM

TUBLISS GEN 2 SYSTEM

Improved Traction - TUBLISS secures the bead so securely that it allows a low tire pressure for improved straight line traction without the risk of a pinch flat or tire bead slippage. And because you can have much lower tire pressures, traction is improved.

Virtually Flat Proof - TUBLISS® really is virtually flat proof when used with a tire sealant. Sealants can't work on tubes where holes in the rubber stretch and tear. With TUBLISS®, your sealant works directly on the tire where it matters.

Weight Savings - TUBLISS® also provides a weight savings of up to 3 pounds per wheel which instantly translates into less rotating weight and increases acceleration.

Runs Cooler - Without the weight and friction of a conventional tube installed, tire temperatures are greatly reduced. This also eliminates tire pressure increases during the course of a moto.

Rim Protection - TUBLISS® protects the rim from dings and dents by holding the tire firmly and making the sidewalls stay upright and absorb the full impact, unlike bending and deflection of conventional tubes.

DESCRIPTION	PART #
18" TUBLISS system	178-1800
TUBLISS 18" Replacement Tube	178-1801
TUBLISS 18" Replacement Liner	178-1802
19" TUBLISS system	178-1900
TUBLISS 19" Replacement Tube	178-1901
TUBLISS 19" Replacement Liner	178-1902
21" TUBLISS system	178-2100
TUBLISS 21" Replacement Tube	178-2101
TUBLISS 21" Replacement Liner	178-2102

TUBLISS STEM SPACER

FRONT 178-3006 REAR 178-3006

TUBLISS RIM TAPE

FRONT 178-3001 REAR 178-3000

PUIG RIM TAPE

749-4312X

- 3M Fluorescent tape.
- 5 mm x 6 mm, enough to do one bike.
- KTM Orange
