

## BATTERY ACCESSORIES

### DP1 10 Bank Battery Maintainer 330-1006

- Designed for shop use
- Can charge up to 10 batteries at one time. A lawnmower, motorcycle, child's power wheel, and an ATV battery can be connected at the same time to our charger.
- 12v 250mA per channel Intelligent Microprocessor Controlled Battery Charger and Maintainer designed for giving you the optimum performance out of your 12v battery, via the 10 Channel output.
- Each channel is considered it's own charger and will determine the status of the battery.
- The charger's internal microprocessor contains a software program that DPI developed, which applies a 5-Stage Intelligent Charge, including a Battery Diagnostics Stage. MUCH MORE THAN A MAINTAINER!!
- This allows the customer the ability to charge and maintain different types of 12V batteries.

### Battery Charger 900 mA 330-1000

Yuasa's Automatic 900 mA 12V Battery Charger is the industry's most powerful plug-in wall charger. Combining the latest technology and a host of user-friendly features, this compact, high-power unit provides optimum amperage return and is designed to fully charge and maintain conventional batteries and maintenance free (AGM) absorbed glass mat batteries.

### Battery Charger 1.5 AMP 330-1001

#### Now with 6 volt / 12 volt switch!

Yuasa's Automatic 12V 1.5 AMP, battery charger incorporates superior 5 stage charging technology. This high power unit provides error proof operation to fully charge maintenance free absorbed glass mat (AGM) batteries and conventional lead acid batteries.

- 6/12 volt switch
- Provides up to 16 volts (in 12 volt model) to enable recovery of sulfated batteries during pre-qualification stage
- 28 day Charge Recycle - re-evaluates battery status for long term storage
- Designed to prevent overcharging
- AC power LED indicator

### MB-2040 Automatic Charger 330-1002

The MB-2040 offers a high output charging current of four amps, making this unit suitable for shop use. The charger's high voltage potential (20 volts) aids in recovering deeply discharged, sulfated batteries. The MB-2040 features a switch-mode operation enabling a "fast mode" for quick vehicle setup and a "normal mode" ideal for smaller batteries, initial activation and deeply discharged batteries. Additionally, a diagnostics function identifies batteries unable to take a charge and alerts users if the charger is reversely attached to the battery. The MB-2040 charges both conventional (flooded) and sealed (VRLA) powersport batteries.

### Battery Accessory Lead 330-1010

- Simple, quick connection
- Can be used with Yuasa's 1.5 Amp and 900 mA chargers for various applications.

### Fused Ring Connectors 330-1011

- Simple, quick connection
- Can be used with Yuasa's 1.5 Amp and 900 mA chargers for various applications.

### Battery Jumper Cables 330-1050 Yuasa

E84-96306 Emgo

- For ATV's Motorcycles, Watercraft
- Easy to use, easy to store
- Compact
