

TIRE TOOLS / ACCESSORIES

Cold Patch Repair Kit TCI# 160-305

- For repairing tubes or other rubber goods, no heat or flame required.

Tubeless Tire Repair Kits TCI# 160-360

- Contains: 1 reamer
- 4 rubber sticks
- 2 tubes cement

Mini Tire Repair Kit TCI# 160-361

- Contains: 1 reamer
- 3 rubber sticks
- 1 tube cement

Replacement Plugs TCI# 160-360-1

- Replacement plugs for 160-360(above)

Plug & Pump Kit

160-1062

- No need to dismantle from rim. Features the Engine-Air System that needs no replacement parts.

Kit contains:

- Engine air Tire Pump 48" (107cm) Hose
- Engine air Fresh Air Valve & Adapters 18mm, 14mm, 12mm, 10mm
- Tube of Rubber Cement, .41 fl.oz.
- Compact Vinyl Pouch
- Thumb Buffer / Insertion Tool
- Four 2" long (50.8mm) Round "On the Wheel" Temporary Insertion Strips & full instructions.

Deluxe Tube & Tubeless Tire Repair Kit 160-1035

Kit Contains:

- Two 9 1/2" (240mm) Steel Tire Levers
- Engine air Tire Pump 48" (107cm) Hose
- Engine air Fresh Air Valve & Adapters 18mm, 14mm, 12mm, 10mm
- Buffer/Stitcher Tool / Tube of Rubber Cement .41 fl.oz.
- Valve Cap with Core Remover / Reamer/Probe Tool
- Hand Cleaner & Paper Towel
- Three 1 1/4"(31.75mm) Round Patches , Two— 2"(50.8mm) Round Patches
- One 1 5/8 x 3"(41.28x76.2mm) Oblong Patch
- Three 2" long(50.8mm) Round "On the Wheel" Insertion Strips
- Three Permanent Repair Plugs 1 3/4" (38.1mm).
- Round Patch Head with a 1/4"(6.35mm) Rubber Sealing Stem.
- Heavy Duty Black Vinyl Zippered Pouch, Full Instructions.

CHAIN TOOLS

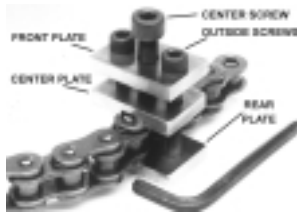

RK's Chain Breaker/ Press Fit & Rivet Tool

230-4060

Quickly and easily breaks 40 & 50 type chain. Easily press-fits tight tolerance 40, 50 & 60 O-ring chain side plates to the correct depth for clip or rivet link installation. Flare's RK's special pin hole rivet links to the proper dimension to secure side plates in place. Works on most brands. Lifetime warranty on tool body and handle

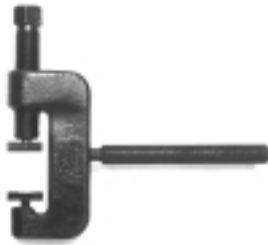

A must for every serious mechanic's tool box!

Mini Chain Press Tool

Since about 1990, most new drive chains use press on type plates on connecting links. On this type link, the side plate cannot be installed without the aid of a special tool. Chain manufacturers have decided that the press fit adds strength to the connecting link and should always be used. The Motion Pro chain press tool shown is designed to install press fit connecting links.

- Tool box size & budget priced press tool that will fit into your fanny pack.
- Will press on the press-fit side plates on most 520-530 standard and O-ring chains.
- A hex key wrench is also included with this tool.
- Made in USA

Oil Filter Strap Wrench

722-8069

- Fits all spin on type oil filters.
- Use with 3/8" drive ratchet handle to easily loosen tight oil filters from hard to reach locations.
- Can also be used to hold, loosen or tighten other cylindrical shaped parts.

Flywheel Puller - Honda/ Kawasaki

722-8085

- 20mm x 1.5 R.H. Thread

Mag Flywheel Puller - YZ4

722-8026

- 27mm x 1.0 L.H. Thread

Spin On Oil Filter Wrench-80mm

722-8016

- Especially designed for Honda V-type engines.
- Will also fit almost all other Japanese bikes.
- Allows the mechanic to torque the filter to proper factory specifications.
- On Honda V type engines, filter may be removed or installed without the need to remove the canisters.

Tappet Tool Set

722-8073

- Set includes three wrenches, 8, 9 & 10mm and three adjusters
- Screw type and 3 & 4mm square-type
- Features interchangeable adjusters and wrenches for nine different combinations

Filter Wrench Spin-On

E84-27580

- Wafer-thin filter wrench
- Fits many Honda, Kawasaki, Yamaha and Polaris models works with Emgo filter #E10-82220 & E10-82230

ENGINE TOOLS

Flywheel Puller (Honda XR / CRF50)

882-0093

- Removes Flywheel and inner rotor
- Works for M27 x P1.0 reverse thread and M20 x P1.5 standard thread.

Universal Flywheel Puller

860-855

Piston Pin Puller

869-0610

- Universal piston pin puller easily removes all sizes of pins without any damage to the piston.

Ring Installation Tool

869-0620

- For easy installation of piston rings by spreading the ring to fit over the piston crown.

AAEN Buret

860-14760

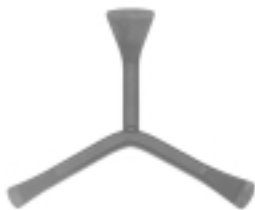

- All plastic unbreakable Buret measures head volume in cc's.
- Used by engine builders to calculate compression ratios and equalize heads.

Timing Plug Wrench

TCI# 722-8087

- For those timing plugs you can't get with an ordinary screwdriver. Fits all the Japanese motorcycles & ATV's with the straight slot timing plugs. Blade sizes are 16mm, 22mm, 38mm.

Tappet Feeler Gauges

TCI# 722-8055

- Shop & home mechanics alike will appreciate the convenience of using this sturdy tool to make accurate tappet adjustments. The rigid handle combined with a high accuracy feeler gauge material makes any adjustment quick & easy.
- Packed in a set of 2 of each size: .002-.003, .004-.005, .006-.008.. Made in USA.

ENGINE TOOLS

Timing Degree Wheel

TCI# 722-8092

- The Motion Pro degree wheel is manufactured from .052" thick aluminum with a 6 3/4" outside diameter and a 6mm center hole with a black anodized finish.
- Tool is easy to read. Use to check or set ignition and/or cam timing. May be used on 2- & 4-stroke engines

Clutch Tool

TCI# 722-8008

- Designed to hold clutch hubs, flywheels, gears, sprockets, etc. Jaws open to 5" wide. Made from medium carbon steel with hardened jaws. A very useful tool for holding any kind of mechanical work.

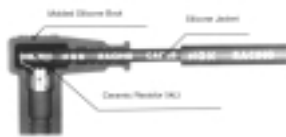

IGNITION ACCESSORIES

Spark Plug Wire

355-9114

- 30 meter roll
- Coppercore with Hypalon covering 7mm dia.

Racing Cable

Do-it-yourself ignition upgrade to help get the most out of snowmobiles, motorcycles, karts and watercraft. Rugged silicone outer insulation and molded boot (solving the problem of lost performance caused by aging wires!) to the inner core of solid copper wire strands for maximum spark energy. Complete with 5k resistor covers to guard against RFI. Boot has solid post elbow built in.

TCI #	Boot	Plug Terminal	Length
355-1031	Elbow	Solid Post	50cm
355-1032	Straight	Threaded	50cm
355-1033	Elbow	Threaded	50cm
355-1034	Straight	Solid Post	50cm

Cable Splicer

355-1030

Save the hassle when connecting new wires to a stock CDI ignition. Simply insert the lead from the CDI unit in one end, and the new wire in the other, screw the pieces together and you've got yourself a finished piece! Made of high impact plastic, this handy unit will solve all wire connection problems.

Spark Plug & Bulb Carrier

360-1130

HOLDS:

- Two spark plugs (14/18mm) (plugs and bulbs not included)
- Two tail light bulbs
- One headlight bulb
- Space for cable/wire

ELECTRIC

Ignition System Tester

722-8122

Motion Pro's ignition system spark tester is designed to test the integrity & strength of your ignition system. The larger the gap your ignition will jump, the stronger your system is. This unit will test the spark on most snowmobiles, motorcycles, water crafts, and ATV's.

- The spark gap is adjustable from 0 to 10mm.

Motion Pro T-Handle Sockets

- Motion Pro Inc.'s new set of T-Handle Sockets are great for shop and home mechanics alike. They feature chrome vanadium tool steel deep 6 point sockets with a carbon steel "T" style handle. These sockets are finished in Nickel-Pewter, and they bring a new look and feel to the traditional T-Handle socket. The deep sockets allow for nuts to be driven over long threaded bolts. The hex socket extends only part of the way inside, allowing the nut to be held in the socket. The outside diameter of the sockets are kept as slim as possible allowing them to fit in tight areas. Motion Pro Inc offers a lifetime warranty on these T-Handle sockets.

HELICOIL

THREAD REPAIR SETS

Original Spark Plug Port Thread Repair Kit

These Spark Plug Repair Kits offer the highest quality and most durable repair available. The first choice of professional mechanics and engine rebuilders, Heli-Coil Wire Spark Plug Inserts are available for any engine. Kits are available in sizes M10, M12, M14, M18, and 7/8". Each kit contains a piloted tap (no drilling necessary), an installation tool, and a quantity of inserts. The M12 and M14 Kits contain several insert lengths to accommodate all spark plug reaches. Heli-Coil Spark Plug Inserts are the preferred method of repair specified by virtually all North American and foreign vehicle manufacturers.

Save-A-Thread Spark Plug Thread Repair Kit

The easiest way to permanently repair stripped spark plug port threads. The growing number of "do-it-yourselfers" and the need for quick repairs on the spot make this kit a must for any shop. The Heli-Coil Save-A-Thread Insert is serrated at the top. When this portion of the insert is expanded it embeds itself into the port and never comes out. Available for 14M x 1.25 repairs, the kit contains a piloted tap (no drilling necessary), an expanding tool, and three inserts: Short, normal and long reaches, to accommodate all spark plug reaches.

PART #	THREAD SIZE	QTY	REACH	REPLACEMENT INSERT PART #	PACKAGE QUANTITY
860-5334-14	M14x1.25	1	Short	860-5326-14S	1
-	M14x1.25	1	Normal	860-5326-14N	1
-	M14x1.25	1	Long	860-5326-14L	1

Drill-Out

858-4000

Drill-Out extractor is a drill bit and extractor in one. Left-hand cutting edge helps to loosen the bolt, and possibly remove it, during drilling. Specially designed drill tip that will not walk or wander even on the rough surface of a broken bolt.

- Includes one of each of the following sizes: 1/4" or M6, 5/16" or M8, 3/8" or M10, 1/2" or M12.

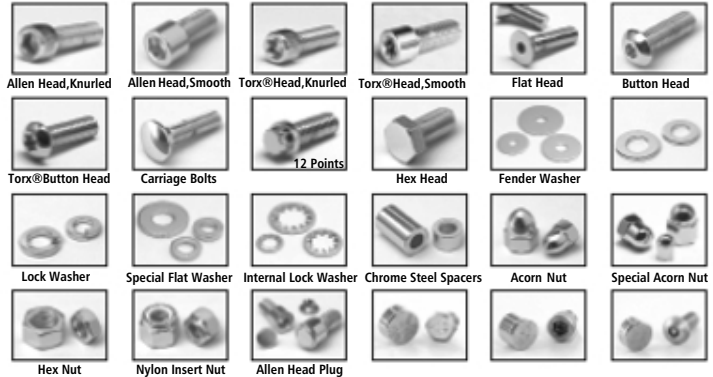

MIDWEST ACORN NUT CO.

CY-NU/CY-CHROME

THE ULTIMATE QUALITY
ISO 9001:2000 REGISTERED

CLYMER REPAIR MANUALS - MOTORCYCLE

Motorcycle Repair Manuals

- The most up-to-date aftermarket information available
- Information that helps you increase the life of your bike as well as its resale value
- Complete wiring diagrams for all models
- Quick reference data lists frequently used specifications on specially marked pages
- Each book features photos, illustrations and exploded views that guide you through every job
- Each book contains an easy-to-use index
- Detailed illustrations, drawings and photos help clarify each service procedure.
- Cautions, notes and warnings throughout each chapter pinpoint critical information that will save you time and help you complete your repair job safely.
- Numbered instructions guide you through every repair procedure step by step.
- Bold figure numbers help you quickly match illustrations with instructions.
- Handy thumb-tabs put the chapter you need right at your fingertips.

Yamaha Water Vehicles; WJ500, WR500, WR650, WRA650, WRB650, SJ650
W805 TCI# 215-805

CARBURETOR TOOLS

Mikuni Pocket Tuner

560-MK550

Mikuni has developed this handy slide calculator which can be used to determine the required jetting changes due to changes in altitude and /or ambient temperature.

- For both 2 & 4 stroke engines.
- Also has a guide for determining rich or lean carburetor conditions.

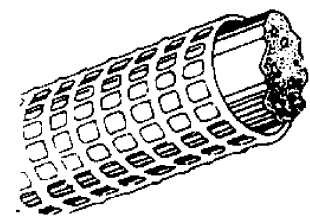

STA-DRI Water Eliminator

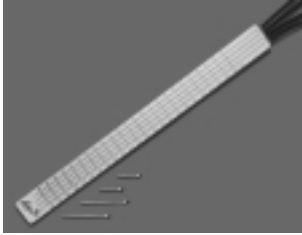

830-100

"Parking your sled in a heated garage - like a service shop, or having a rapid temperature fluctuation such as a chinook wind or a mid-winter warm spell can generate enough condensation to cause an ice clogged main jet. If you don't use some means of fighting water in your fuel, you are running on thin ice.." *Supertrax Magazine

- Eliminate water with the STA-DRI water cell.
- STA-DRI is not a messy fuel additive or an expensive water separator.
- Absorbs water in the full tank, eliminating fuel contamination, tank rust, algae, filter blockage, engine failures, and other water related problems.

CARBURETOR TOOLS

Carb Tuner

Rugged impact resistant polycarbonate body. This high quality tool is designed for shop use. Each Carb Tuner comes with hose, mercury, line restricters and 5mm adaptors for Honda & Suzuki models. Optional 6mm adaptors are for some Yamaha models, while most Kawasaki models do not need adaptors.

DESCRIPTION	PART#
M.P. Carb tuner Adapter 5mm	722-8013
M.P. Carb Tuner Replacement Hoses	722-8014
M.P. Carb Tune Adapter 6mm	722-8040
M.P. Carb Adjusting Tool	722-8022

UNI SYNC 560-027

Uni-Sync is a scientifically engineered precision instrument which provides a visual method of balancing carburetors accurately, assuring the ultimate performance from multi-carburetor engines. It will eliminate the guess work and save setup time.

- An indispensable tool for professionals, mechanics and racers.

EMGO Carb Sync E84-68594

Steel backing plate with four precision vacuum gauges mounted for synchronizing and tuning up to four carburetors at a time.

Mikuni Main Jet Box

Compartment storage bin, great for holding jets and other miscellaneous small parts. This transparent box is made of tough injected polycarbonate resin.

DESCRIPTION	PART#
21 compartments	560-9801
Pocket size - 6 compartments	560-9803

Main Jet Carrier

Stores 22 main jets in a molded neoprene rubber carrier.

DESCRIPTION	PART#
Black - Mikuni	560-1874
Purple - Mikuni	560-1872
Black - for Keihin Jets	560-1878

- Mikuni Carrier comes with jet removal tool. (Can be ordered separately Part#560-1876)

Mikuni Main Jet Remover Wrench

560-1876

- Special tool for removing & replacing Mikuni main jets.

CARBURETOR TOOLS

Motion Pro Main Jet Wrenches

- High quality die cast jet wrenches; fits virtually all imported bikes. Rubber cap holds spare main jets.
- Skin packaged - one per card.

DESCRIPTION

DESCRIPTION	PART#
6mm Hex fits all hex type main jets	722-8023
8mm Round fits all 8mm round main jets	722-8024
6mm Round fits all 6mm round main & pilot jets	722-8025

Mikuni Tool Kit 560-404

- This kit has all the tools needed to work on all Mikuni carburetors.
- Kit includes: carrying case, small & large flat, Philips screwdrivers, 6mm & 9 mm nut drivers, jet wrench (#560-403-2) and bar wrench & float measurer.

Mikuni Jet Wrench 560-403-2

- Original Mikuni jet wrench for all 6mm hex jets.

Mikuni Multi Wrench

- 560-403-1
- 10cm rulers & flat edge.
 - 7mm, 8mm, 10mm, 12mm, 14mm, 17mm wrench.

Pilot Screw Adjusting Tool 722-8119

Motion Pro's new Pilot Screw Adjusting Tool was designed to fit into those tight areas. This unit features a 1" angled head for those hard to reach pilot screws.

- Length is approximately 17" with a flat slot blade tip.

VISU-FILTERS

- Made in the U.S.A..
- Clear Filter to see necessary replacement.
- Made of a high impact nylon for durability.
- Does a big job eliminating dirt and other contaminants.
- Resistant to gasoline, gasohol, diesel.
- Ultrasonically welded for no-leak construction.
- Cards available for display.

Visu-Filter - Flat

760-401

- Stainless steel 75 micron filter element
- Overall Diameter: 3.3cm (1.3"); Inlet Diameter: 7.95mm (5/16")
- Length between hoses: 2cm (.85"); Length: 4.43cm (1.75")
- Fits Fuel Line ID: 4.76-6.35cm (3/16"-1/4")
- Visu-Filter - Small 760-701
- Sintered Bronze 75 micron filter element
- Overall Diameter: 2.2cm (.85"); Inlet Diameter: 7.95mm (5/16")
- Length between hoses: 2.8cm (1.1"); Length: 5.44cm (2.142")
- Fits Fuel Line ID: 4.76-6.35cm (3/16"-1/4")

Visu-Filter - Large

760-704

- Sintered Bronze 75 micron filter element
- Overall Diameter: 3.3cm (1.3"); Inlet Diameter: 7.95mm (5/16")
- Length between hoses: 4cm (1.6"); Length: 7.47cm (3")
- Fits Fuel Line ID: 4.76-6.35cm (3/16"-1/4")

Visu-Filter - Right Angle

760-707

- 90 Deg Porous Bronze 75 Microns
- Length 1 3/8" Diameter 1 1/5"
- Fits 1/4" Fuel Line

Fuel Gate

760-601

- For 5/16" fuel line.
- Allows fuel to only flow one way.

FUEL FILTERS

Small

760-25

- Capacity - 11-12 gallons fuel flow
- Nylon screen traps all dirt particles

Jumbo

760-26

- Jumbo fuel filter
- Nylon screen has self-cleaning action
- Used as O.E.M. on many snowmobiles
- Fits both 7/32" and 1/4" i.d. fuel line

See-Through Filter

760-2450

- Improved see-through filter with a larger fuel flow capacity of 15 gallons per minute.
- Fits 3/16" and 1/4" fuel line.

Arctic Cat 0109-579 use 0510-335, Bombardier 414.1194.00 use 414.3636.00 & others, Walbro 12,512.

FUEL FILTERS

Fuel Filter (1/4")

760-2464

Universal - Replaces Fram G-2

Fuel Filter (7/32")

760-2463

Universal - Replaces Fram G-1

Emgo Fuel Filter (5/16") / (3/8")

- Exact replacement in-line fuel filter for all Honda Goldwings.
- Replaces OEM #16900-371-004 / 16900-M68-003
- Fits all 1000, 1100, 1200GL.
- Nylon casing with paper filter element.
- Sold in 10's on a display card.
